

# 10th Annual Human Resources Symposium

Seating is limited - Register soon!

School administrators live in a constantly changing world, where new “hot” legal issues seem to lurk around every corner. At Walsh Gallegos, our attorneys make it their business to stay on top of the latest legal developments — and we’re here to break our findings down for you.

Our HR Symposiums focus on three key topics that have taken center stage for school administrators in recent months:

1. **Educator Misconduct.** Explore reporting requirements and the implications of S.B. 7 on hiring, retention, and separation.
2. **Disabilities.** Learn strategies for reasonable accommodation of employee disabilities.
3. **Social Media.** Examine legal developments, best practices and disciplinary options for addressing employee use of social media.

Perfect for campus and central office administrators, attendees will gain knowledge of legal issues and requirements and receive practical suggestions and strategies to address common school and department scenarios.

Attendees will also benefit from a lively, interactive lunch session where experienced school attorneys will be ready to answer your questions. Gain real-world perspective and get the up-to-the-minute insights you need, right now.
