“Education is the foundation for opportunity, and serving the schools that shape future generations is both a privilege and a calling.”

Nicole Blaylock Thomas grew up in a family of educators, with her mother and several extended family members serving as elementary teachers and school administrators. Through their example, she developed a deep respect for the vital role public schools play in shaping students, families, and communities. Nicole is passionate about partnering with school districts to support educators and administrators in their mission to provide safe, effective learning environments where students can thrive.

Nicole earned her law degree from UNT Dallas College of Law, where she served as President of the Women in Law Student Association. As President, she mentored fellow law students and helped provide professional development, networking opportunities, and resources to support women pursuing careers in the legal profession. While attending law school, Nicole also worked full time as a litigation paralegal, gaining extensive experience in complex civil litigation and developing a strong foundation in legal analysis, advocacy, and client service.

Nicole also received her Bachelor of Arts in Political Science, with a minor in Corporate Communications, from Baylor University.

Outside of work, Nicole enjoys spending time with her husband, going for long walks, taking Pilates classes, and serving as a Sunday School teacher at her church.
